Welcome to AskDocPh

AskDocPh is a premier platform dedicated to your mental well-being, connecting you with licensed psychiatrists, psychologists, and mental health counselors in a secure, private, and judgment-free environment. Whether you are navigating the challenges of anxiety or depression, or simply seeking a supportive person to talk to, our community is here for you. We differentiate ourselves by leveraging advanced AI-powered guidance to help you navigate your unique mental wellness journey. This technology offers immediate support when you need it most and intelligently matches you with the right professional tailored specifically to your needs.

Daily Affirmation

"There is nothing noble in being superior to your fellow man; true nobility is being superior to your former self."

- Ernest Hemingway

The screenshot displays the AskDocPH application interface. On the left, a sidebar menu includes options like 'Fee', 'Sup', 'Res', 'My', 'Daily', and 'Crisis'. The main content area is titled 'About Bot' and provides information about the 'Real-Time Analysis' chatbot, including its goals (24/7 support, crisis intervention, professional resources) and emergency help for the Philippines (dial 911, NCMH hotline, etc.). Overlaid on the right is a chat window titled 'Mental Health Chatbot'. The chat shows a greeting from the AI screener, a user input 'Hi I am so stress', and a response from the bot: 'Hey, I'm here to listen. What's been causing you so much stress lately?'. At the bottom of the chat window, there is a text input field and a 'Send' button. The user's profile at the bottom of the screen is identified as 'Doctor Pelotea Baslot'.
